Specialised
industry knowledge

OUR
PRODUCT LINES

Access steps

Roofrack systems

Protection systems

Access ramps

Security & Interiors

BUSINESS PARTNER & CONTACT

Our sales team is focused on customer service and ongoing development.

Our goal is to provide various solutions for as many manufacturers as possible and position ourselves as an important supplier to the automotive industry.

Please contact us with any questions you may have through any of the options below - we can be reached quickly and will be happy to help.

Technical

Any technical question during assembly or application you can be discussed with our technicians by phone. Many things can already be solved by simple analysis and delivery of a spare part.

Regular service of your equipment is very important for long-term and smooth operation. In case of poor basic maintenance and non-compliance with the service intervals, you may lose the warranty claims.

Nevertheless, we are of course always available to you with advice and support, should, contrary to expectation, something no longer work.

VISION

Our vision is to be identified by our customers as **the** partner for innovative access and transport solutions for vans and minibuses.

MISSION

AlphaDynamik is a process-driven company, which develops its own solutions and designs and is recognized as a top brand in the market.

Products from AlphaDynamik are primarily specified for technical tenders for our customers and are used by public administration and regulatory agencies to establish industry standards.

AlphaDynamik consists of highly qualified, competent and self-managers and employees. Our team is known for highest performance and works dynamically for the realization of top performance.

The high-performance company AlphaDynamik operates in modern facilities that offer employees and business partners alike a unique experience and daily inspiration to develop their potential.

VALUES

Innovation

We dream.
We develop.
We deliver solutions,
that inspire.

Excellence

This is where
it all begins.

Integrity

We exceed the
expectations of our
customers & society.

Diversity

We appreciate & promote
the knowledge, skills & the
expertise of each individual.
